

VIDEOWAVES

Dear Friends,

Wish you a very HAPPY NEW YEAR with a big announcement to make.

We have recently brought a huge inventory of A3 series LED wall from ABSEN. ABSEN is one of the leading international LED Wall manufacturers making products, only as per international standards, quality and specifications.

Highlights of the product:

- ▶ **3mm pixel pitch series:**
For small fonts & less viewing distance.
- ▶ **Black body SMD 3 in 1 for maximum contrast.**
- ▶ **1/8 scan ratio to achieve higher grey level & refresh rate over 2000 hz.**

This gives very good image quality. Avoids black lines in photographs & removes video noise even at minimum brightness.

Normal Refresh rate (with black wave)

High Refresh rate

- ▶ **Flying/Hanging options :**

Along with the wall we have imported the original flying brackets for this cabinet. Since these are also light weight we can easily suspend them on a truss or on the lights bars in an auditorium.

- ▶ **Curved Screen :**

We are designing special angle locks to convert the screen to a Curved / Concave LED wall.

VIDEOWAVES

▶ **Low Power Consumption :**

Maximum consumption - 540watts per Square meter.

Average consumption - 180watts per Square meter.

This means that an LED wall of 20ft x 10ft would consume maximum 10kw, while the running power consumption would only be around 4kw.

▶ **Maximum viewing angle :**

Horizontal & Vertical viewing angle 140 degree

This ensures maximum visibility even for people who are seated on the sides, top or bottom.

▶ **Size Flexibility :**

We can offer a wide range of sizes from 16sqft to 1200sqft.

i.e. 5ft x 3.3ft up to 120 x 10, 80 x 15, 60 x 20 etc....

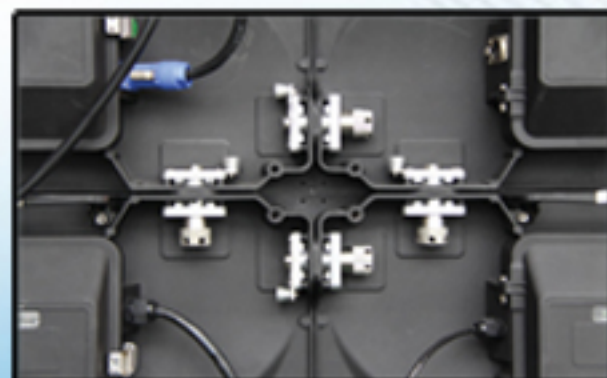

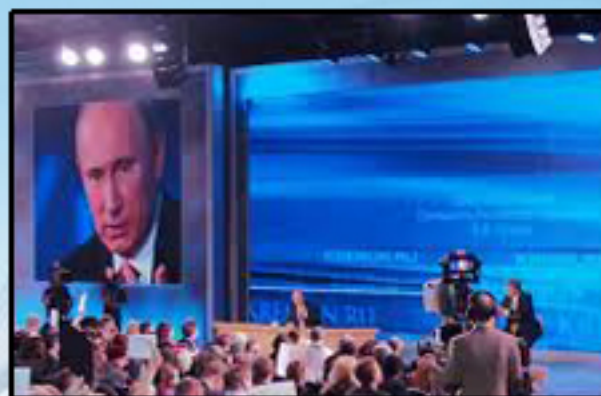

▶ **Magnetic modules:** for quick onsite replacement in case of damaged LEDs.

▶ **Slim & light weight with Seamless Stitching:**

To remove gaps while installing,

Easy & quick installation for saving set up time.

Creating a perfect display.

Looking for an opportunity to use and demonstrate at any of your esteemed events.
